

Mr Jeff Ecker, hand and wrist microsurgeon presents... “What’s new, what’s cool and what works”

TOPICS COVERED

Treatment options for arthritic joints of the fingers, including PIPJ silastic joint replacement and DIPJ fusion.

When to refer and how to treat patients presenting with Dupuytren’s fibrosis.

Undiagnosed wrist pain: the use of ultrasound within the clinic and the value of diagnostic arthroscopic surgery.

Options available for the treatment of wrist ganglia and distal radius fractures, particularly in elderly people.

Wrist pathology: scapholunate instability, triangular fibrocartilage tears and extensor carpi ulnaris instability.

Mr Jeff Ecker
Orthopaedic Surgeon
