

TOPIC OF THYROID CANCER FOR GP EDUCATION PROGRAM

Perth Thyroid Cancer Clinic will be presenting the next topic at Bethesda Health Care's GP Education Program on 12 April 2018 from 6:30pm.

Held in the Hospital Café, this education seminar will entitle the attending General Practitioners 4 CPD points.

The topic will be: "Thyroid and Parathyroid Disease" All you need to know in diagnosis, imaging and surgery. The presenting specialists from Perth Thyroid Cancer Clinic are:

- Mr Dean Lisewski - Endocrine Surgeon
- Dr Richard Gauci - Endocrinologist and Nuclear Medicine Physician
- Dr Bruce Powell - Specialist Anaesthetist
- Dr Rudolf Boeddinghaus – Radiologist

Areas of interest to be covered include:

Current management techniques for thyroid nodules

An overview of the management of primary hyperparathyroidism

Investigation options for thyroid disorders from a radiological perspective

Recommended diagnostic tests and imaging for patients presenting with thyroid and/ or parathyroid disorders.

Bethesda Health Care CEO Ms Yasmin Naglazas said that 'we look forward to highlighting the work of the specialists from Perth Thyroid Cancer Centre at our next GP Education session. These specialists are all accredited at our Hospital'.

This is the second GP Education Program session for the year, and future presentations include Breast Cancer Care, Prostate Cancer, Orthopaedics including hand and upper limb, and Palliative Care.

Bethesda Health Care is an independent 88-bed award-winning hospital in Claremont who has been providing care and service to the Western Australian community for 75 years.
