

FULL DAY OF ORTHOPAEDIC CONDITIONS FOR GP EDUCATION

The 2017 Bethesda Health Care GP Education Program is commencing on Saturday 1 April 2017, with an all day program run by Coastal Orthopaedics entitled “A complete orthopaedic update for GPs: symptoms, diagnosis and management”.

This full day session will count for 40 CPD points and will be a combination of presentations, Q & A, as well as patient simulation demonstrations.

Presenting from Coastal Orthopaedics are the following orthopaedic surgeons:

- Dr Toby Leys
- Dr Matthew Scaddan
- Dr Andrej Nikoloski
- Dr Omar Khorshid
- Dr Peter D'Alessandro
- Dr Brendan Ricciardo
- Dr Paul Khoo

Coastal Orthopaedics opened their dedicated space in Bethesda Health Care in 2011, and they have been part of the GP Education Program at the hospital since the program started in five years ago.

Topics for 2017 include skin cancer, cardiology, pain management, and palliative care.

Bethesda Health Care is an independent 88-bed award-winning hospital in Claremont who has been providing care and service to the Western Australian community for more than 70 years.
